Transportation around Birmingham

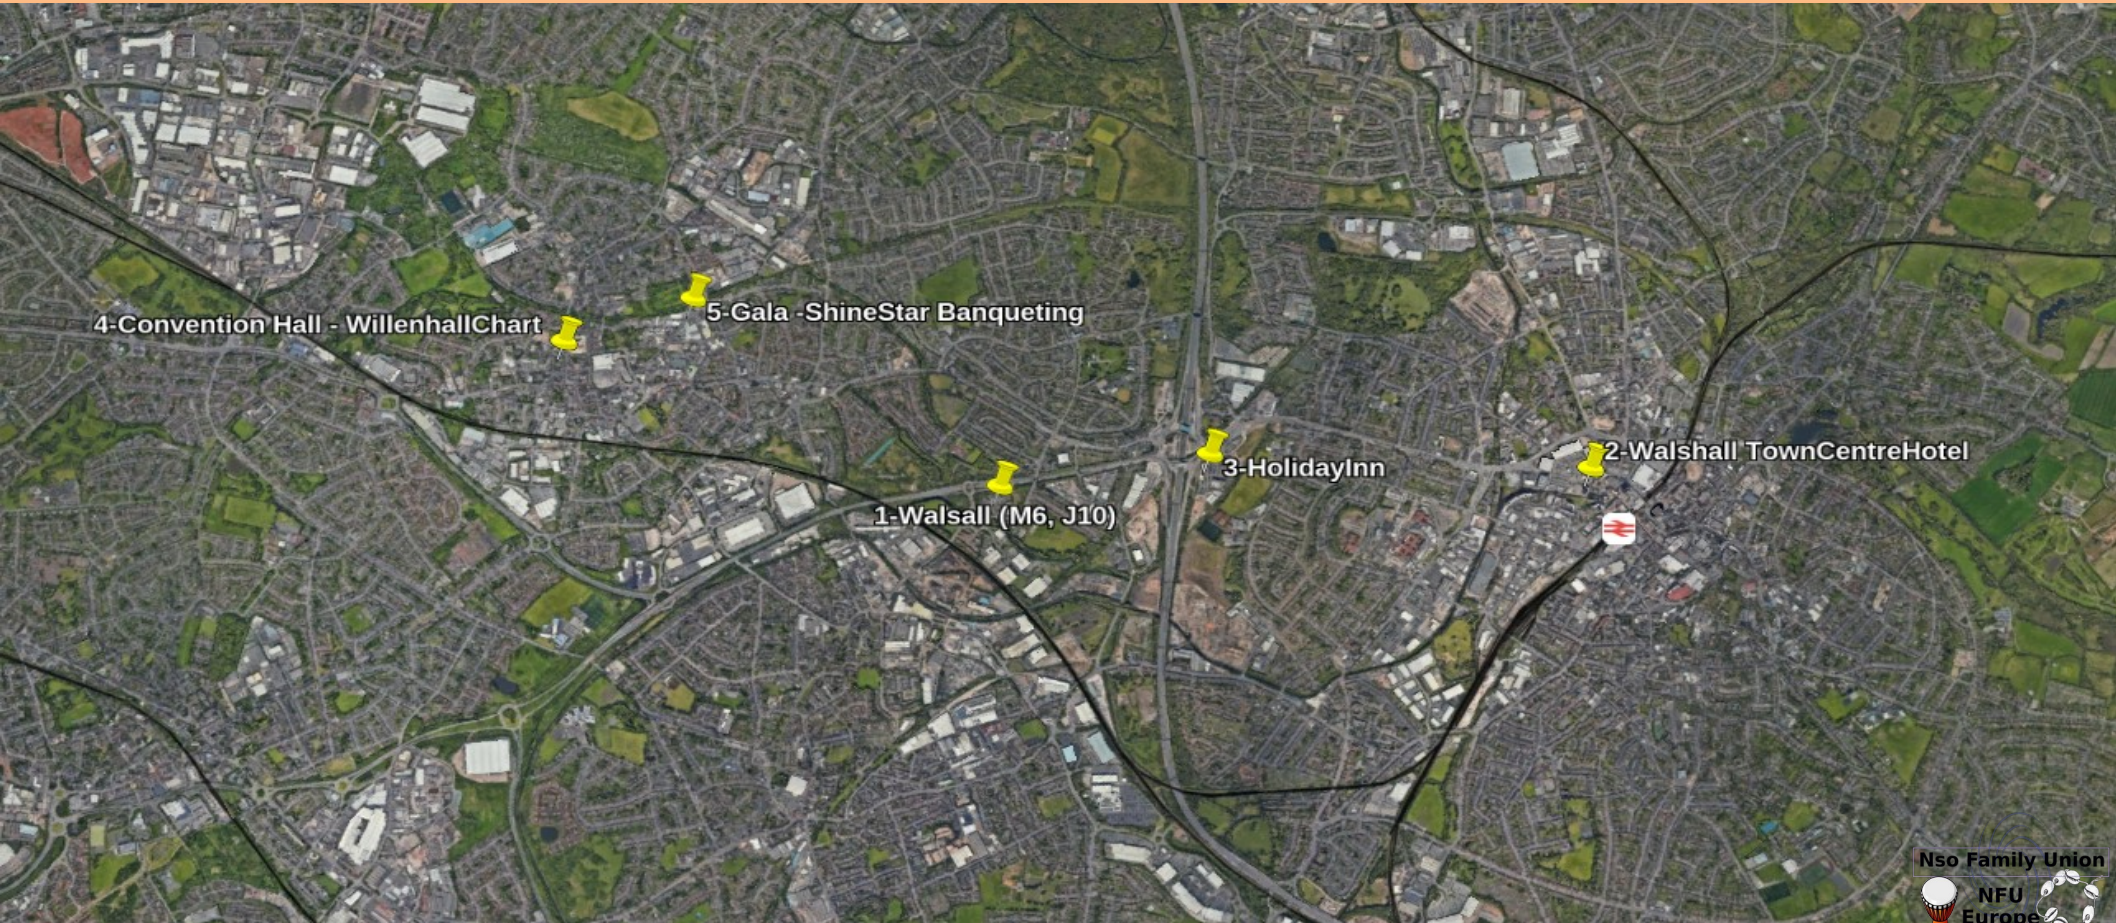

It has been highly recommended that anyone travelling to Birmingham should download and install Uber : This has been recommended as one of the cheapest way to move around town.

Alternatively Taxis are available though a bit expensive. Wirfon travelling in groups either by taxi or Uber makes it less expensive.

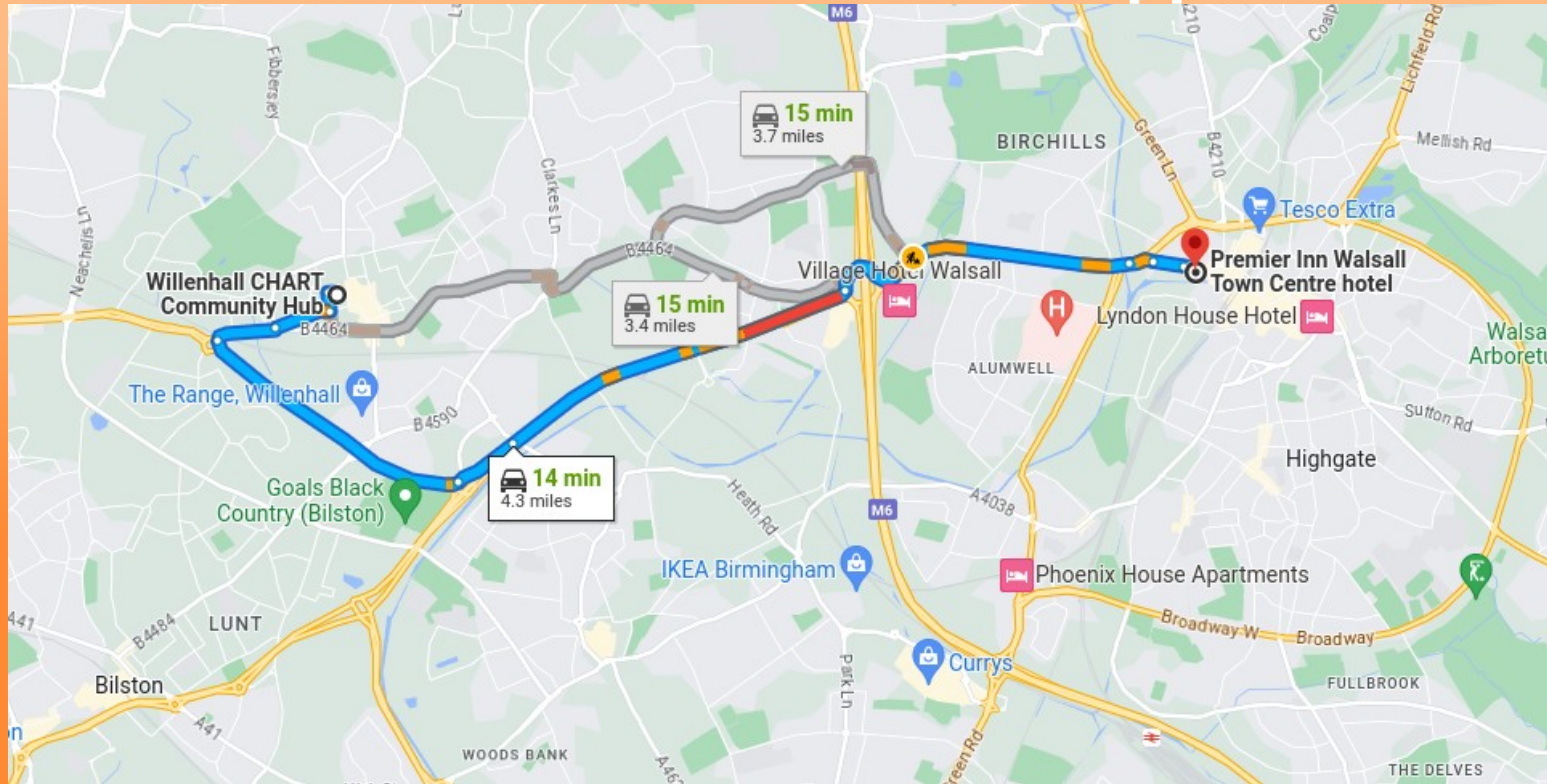

Everyone should ensure they have the full address of the hotel where they are lodged, the full address of the convention hall as well as the full address of the gala hall in a location where they can easily access. You can either send those addresses as a message to yourself on WhatsApp.

Topic 2: Migration and mental well-being: The case of NSO people in Europe.

Context:

The experience of migrating and resettling in a new country often comes with mental health challenges; however, immigrants generally show a higher level of resilience. These challenges are often associated with various factors that range from family, community, culture and societal levels. The perturbation on the functioning of these factors may result to various mental health disorders. The most common disorders associated with this include, depression anxiety, substance use, psychosis, suicidal tendencies, pathological grief and posttraumatic stress

Objectives:

In this workshop, we will look at various risks and protective factors of mental health in the Nso community in Europe. Prevalent mental disorders and their symptoms will also be looked at with emphasis on various available support that ranges from basic to specialized mental health care. The question of when, how, and where to seek help will be addressed.
