Transportation around Frankfurt

In order to make your trip cheaper we recommend that people take the taxi as a group.

It has been highly recommended that anyone travelling to Frankfurt should download and install Uber : This has been recommended as one of the cheapest way to move around town.

Alternatively Taxis are available though a bit expensive.

Wirfon travelling in groups either by taxi or Uber makes it less expensive.

Everyone should ensure they have the full address of the hotel where they are lodged, the full address of the convention hall as well as the full address of the gala hall in a location where they can easily access. You can either send those addresses as a message to yourself on WhatsApp.
